

## Pyramid Play - User Guide

### Compilation:

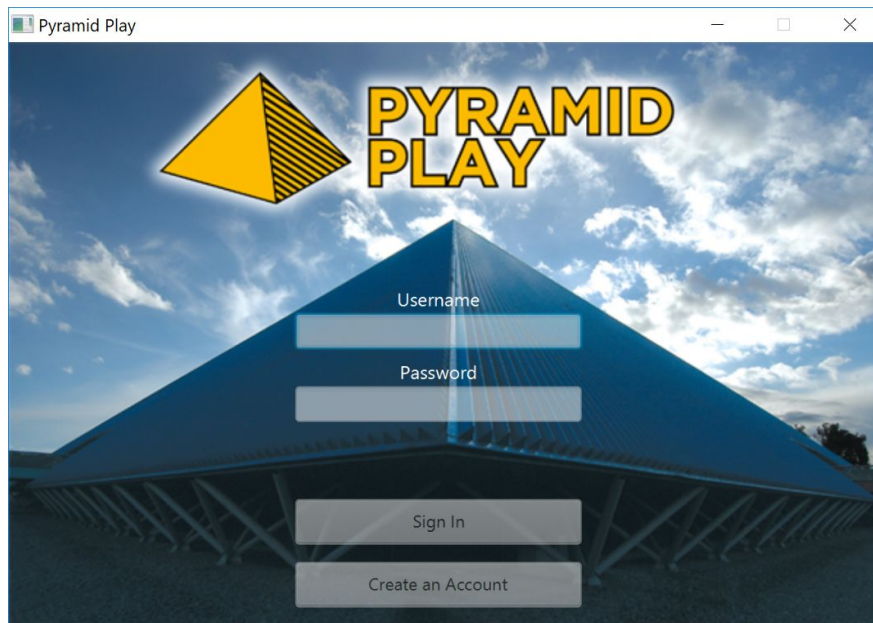

Open the project folder in Eclipse Java Photon (June 2018).

Locate the green button in the upper right with the white play button inside of it:

After a few moments (or even a few minutes depending on your computer specs), you should now see the front page of the program:

- **How to create account/login**

- Creating an account
  - Press "Create an account".
  - Enter account information into their designated fields.
  - If the username entered is unique, then click register account.

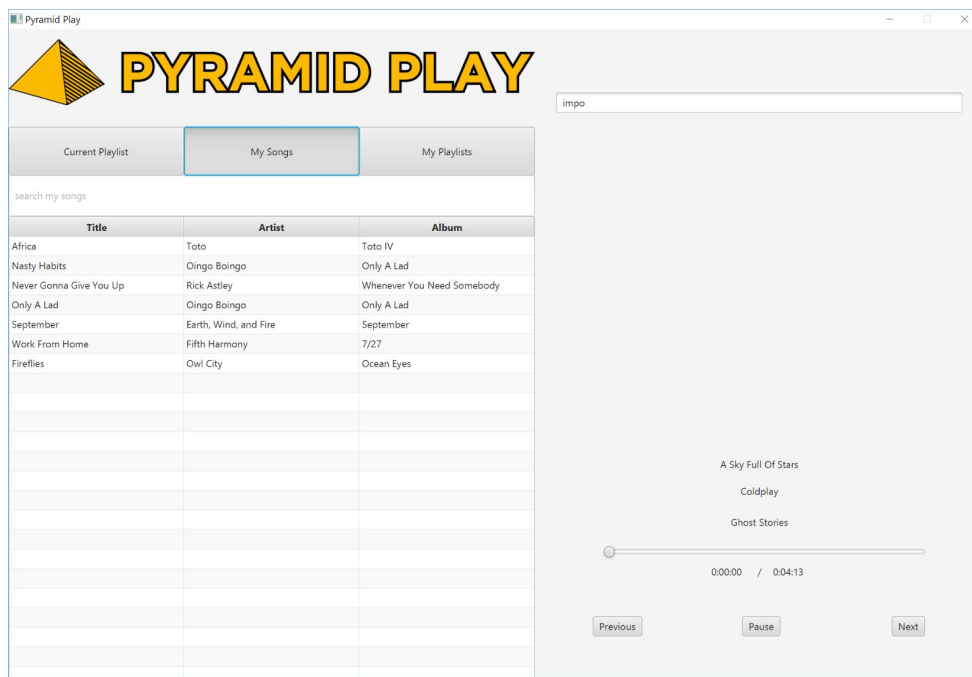

- Logging in
  - Enter Username and Password into their correct fields.
    - We have two premade users:
      - Andrew
        - Username: amyer
        - Password: password
      - Matt
        - Username: mchu
        - Password: hunter1
  - Click “Sign in”

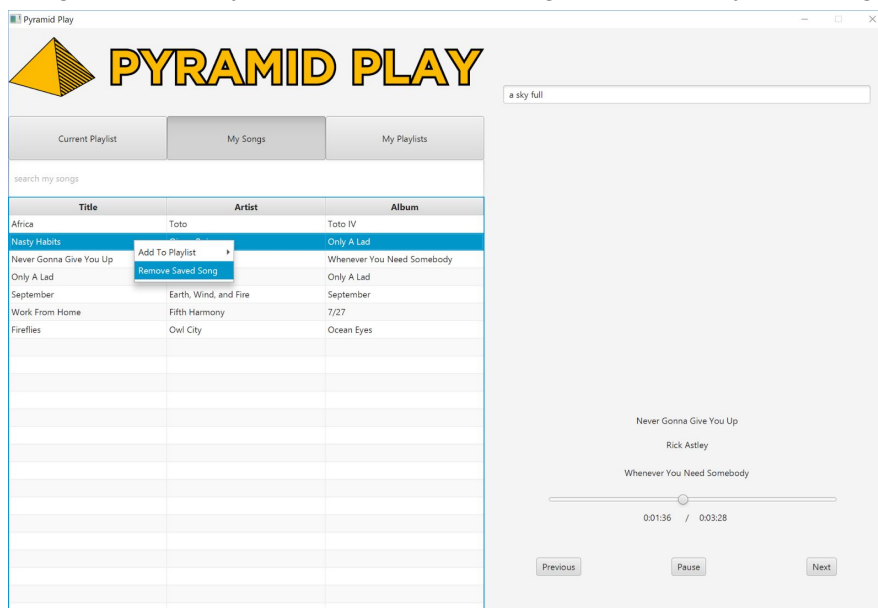

## My Songs

My Songs is a library of songs that are “yours” that you can add to a playlist. It will automatically have a single song in it.

You can delete a song from your library by right clicking the song and clicking “Remove Saved Song.” However, you cannot delete a song if there is only one song in the library.

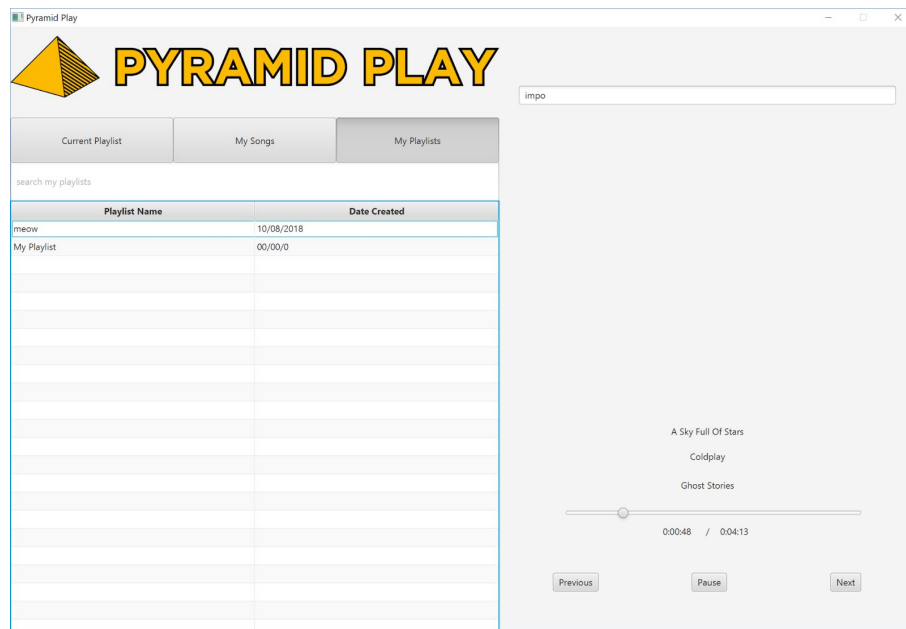

You can add one of the songs in your library to a playlist by right clicking and selecting “add to playlist”, and then selecting the playlist of your choice.

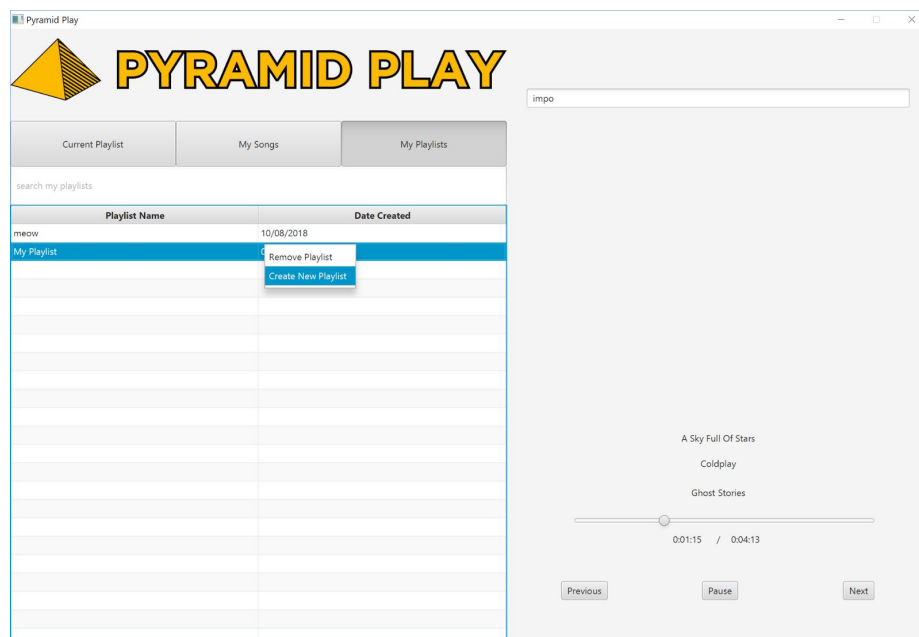

## Playlists

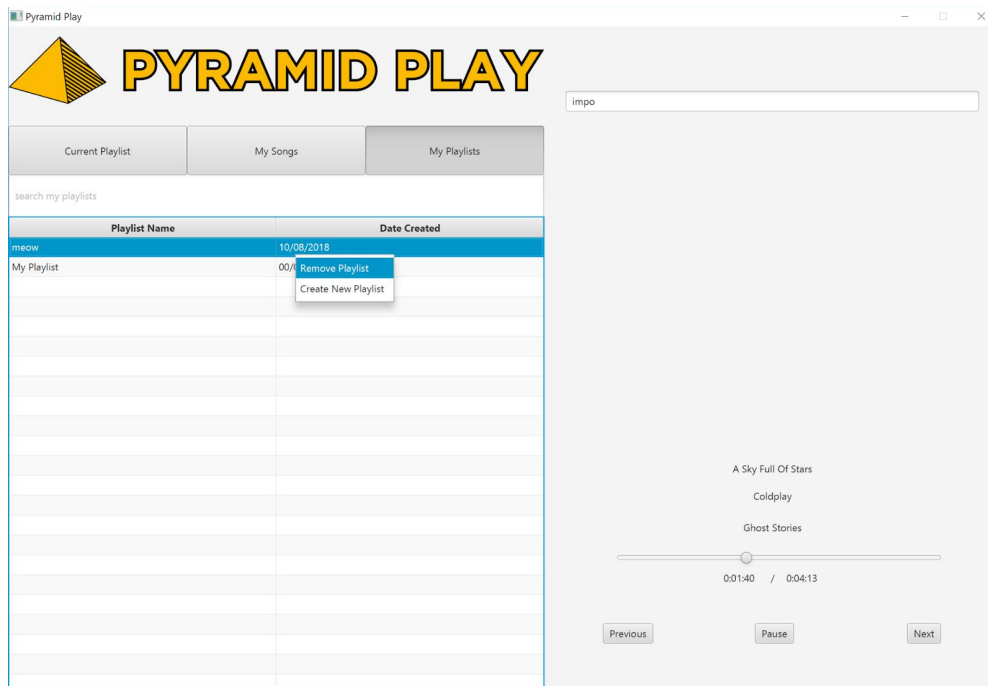

You will notice that you have a single playlist named “My Playlist.” This is the default playlist and cannot be deleted. However, songs can be added to it if you would like.

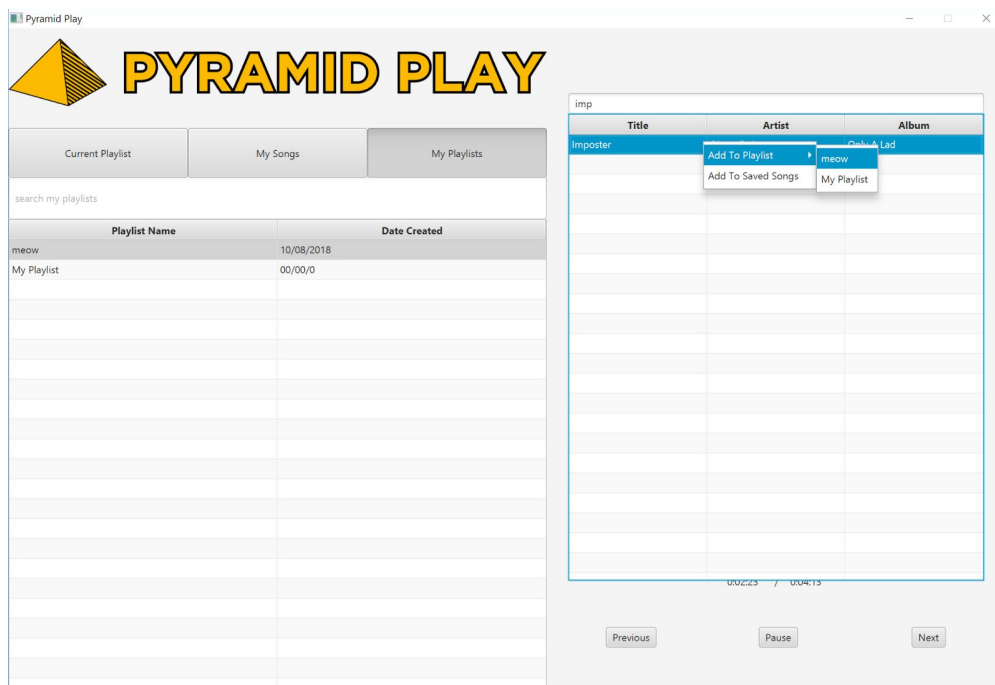

To create a new playlist, right click on the playlist tab and select “Create New Playlist”. You will be prompted to add the name of the playlist. You are not allowed to have two playlists of the same name.

To delete a playlist, right click on the playlist you'd like to delete and click "Remove Playlist". You cannot delete the "My Playlist" playlist, however.

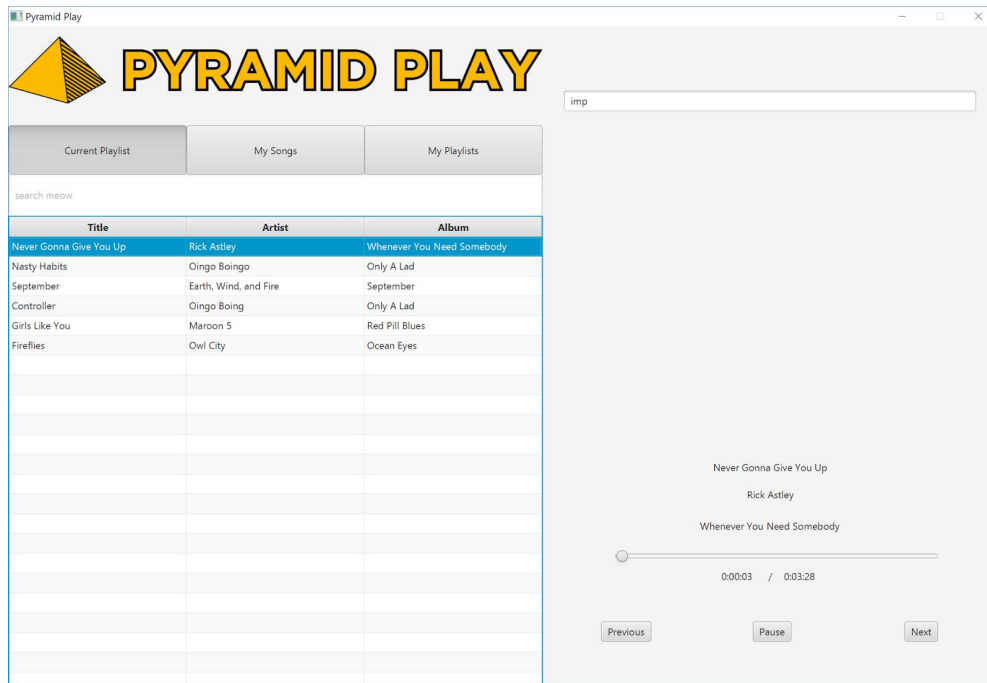

To add a song to a playlist, one can either add one from "My Songs" (covered in the My Songs section), or they can add one by searching for a song in the search bar in the top right. Then right click on a song and select "Add to Playlist", and then choose the playlist you'd like to add to.

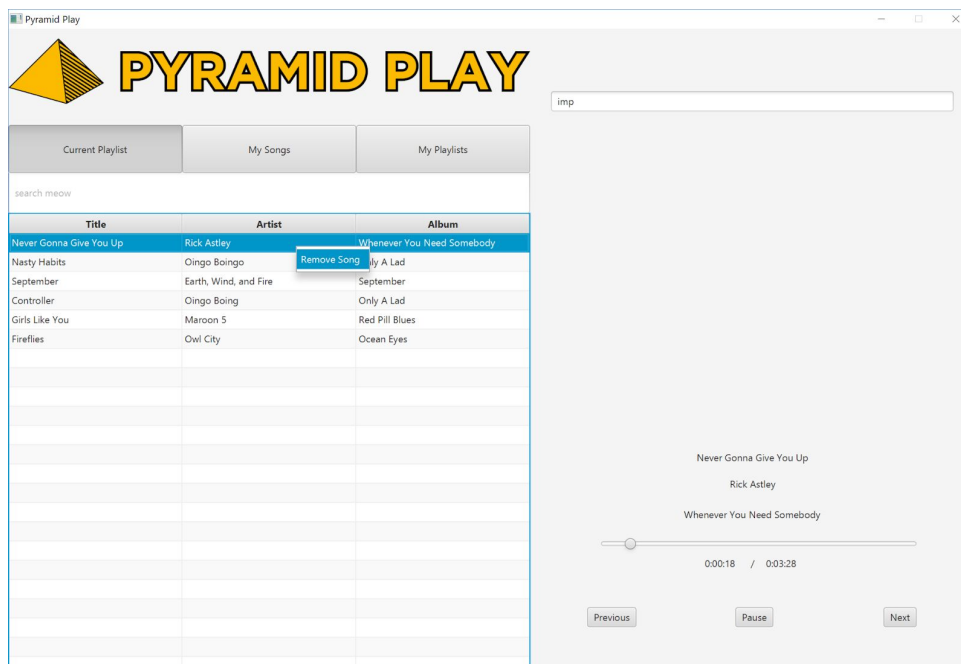

## Current Playlist

When a playlist is clicked and selected, the tab will change to “Current Playlist” and display the songs that the selected playlist contains.

Songs can then be deleted from the current playlist selected.

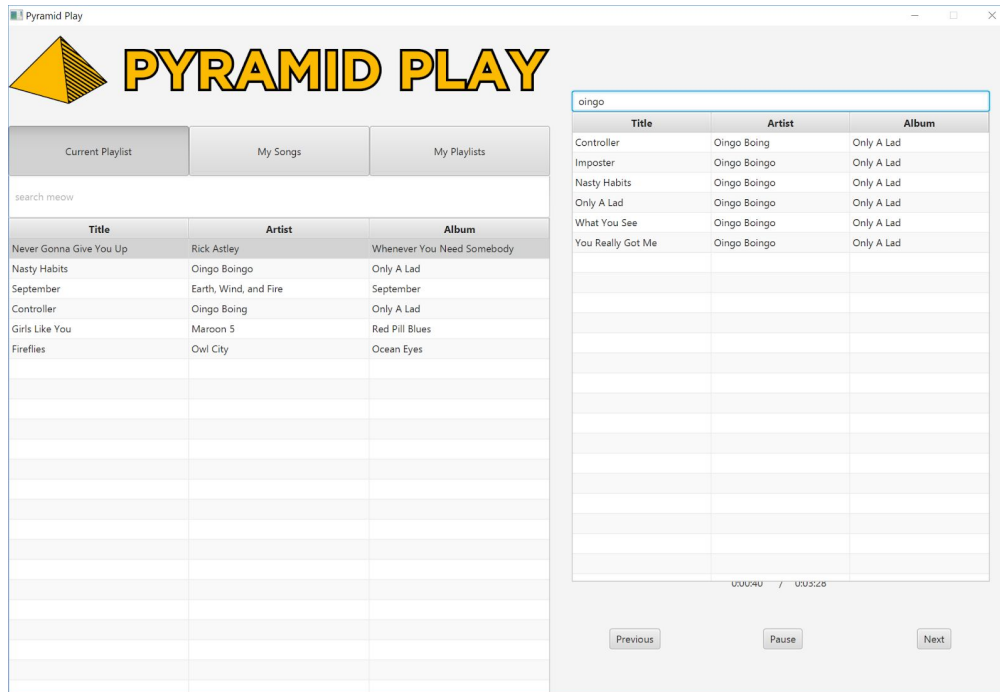

The song can be changed by left clicking on the song of your choice.

## Searching Songs

To Search all the songs our platform has to offer, simply click on the bar on the top right, and type in the name, album, or artist of the song you wish to select.

The screenshot shows the Pyramid Play application window. The title bar reads "Pyramid Play". The main header features a yellow pyramid icon and the text "PYRAMID PLAY". Below the header, there are three tabs: "Current Playlist", "My Songs", and "My Playlists". The "Current Playlist" tab is active, showing a search bar with the text "search meow". Below the search bar is a table with three columns: "Title", "Artist", and "Album". The table contains the following data:

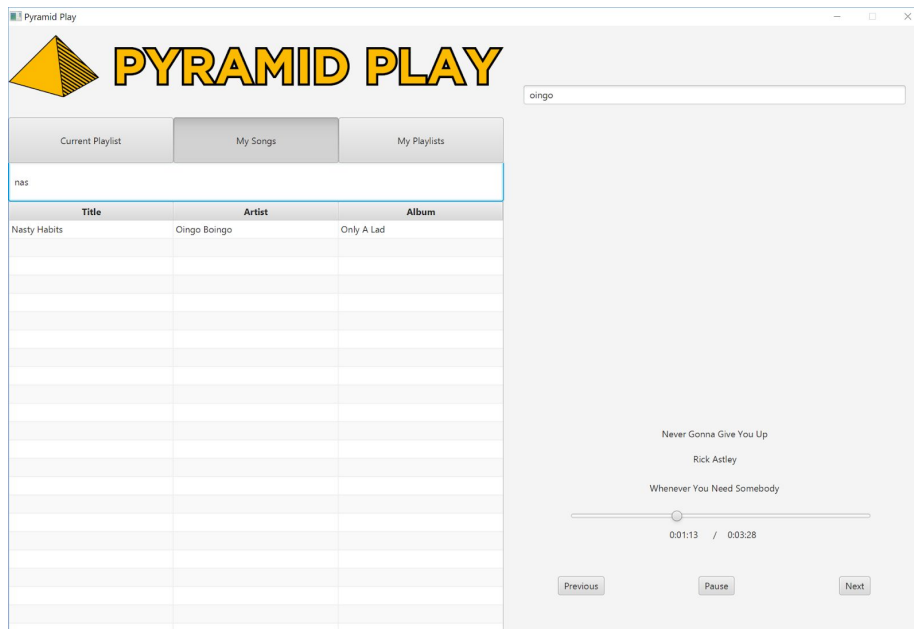

Title	Artist	Album
Never Gonna Give You Up	Rick Astley	Whenever You Need Somebody
Nasty Habits	Oingo Boingo	Only A Lad
September	Earth, Wind, and Fire	September
Controller	Oingo Boingo	Only A Lad
Girls Like You	Maroon 5	Red Pill Blues
Fireflies	Owl City	Ocean Eyes

On the right side of the application, there is a search bar with the text "oingo". Below the search bar is a table with three columns: "Title", "Artist", and "Album". The table contains the following data:

Title	Artist	Album
Controller	Oingo Boingo	Only A Lad
Imposter	Oingo Boingo	Only A Lad
Nasty Habits	Oingo Boingo	Only A Lad
Only A Lad	Oingo Boingo	Only A Lad
What You See	Oingo Boingo	Only A Lad
You Really Got Me	Oingo Boingo	Only A Lad

At the bottom of the application, there are three buttons: "Previous", "Pause", and "Next".

To Search My Songs, Select the My Songs button, and enter the name, album, or artist of the song you wish to select.

At the bottom of the application, there are three buttons: "Previous", "Pause", and "Next".

To Search My Playlists, select the My Playlist button and enter the name, album, or artist of the song you wish to select.

To search the songs in the current playlist, press the current playlist button and enter the name, album, or artist of the song you wish to select.

## Using Slider

The slider is used to choose at what time you want to play a song from. To use it, simply press and hold the circle and release on the desired time. You can also click on the bar what time you want the song to play.
